BOOK LAUNCH WITH CHARLES TAYLOR

COSMIC CONNECTIONS – POETRY IN THE AGE OF DISENCHANTMENT

17.06.2024 | 16:00 | RESEARCH BUILDING "WELTBEZIEHUNGEN" | C19.00.02/03

Hartmut Rosa, Gesche Keding and Markus Kleinert talk to author Charles Taylor about his new book "Cosmic Connections – Poetry in the Age of Disenchantment". The event will be moderated by Ulf Bohmann.

We need a new relationship to nature. But humans always already desire a sense of connection with the cosmos or nature. That is a human constant. Only the conceptions and how this desire is pursued change. Charles Taylor begins his inquiry on Romantic poets in Jena. Philosophers and poets found new ways of expressing their search for this sense of connection. Previous ideas had lost their viability. The book is a search for connections, which are not reduced to objectifying and instrumentalizing standpoints.
