Remote Access via Shibboleth and VPN

Shibboleth[®]

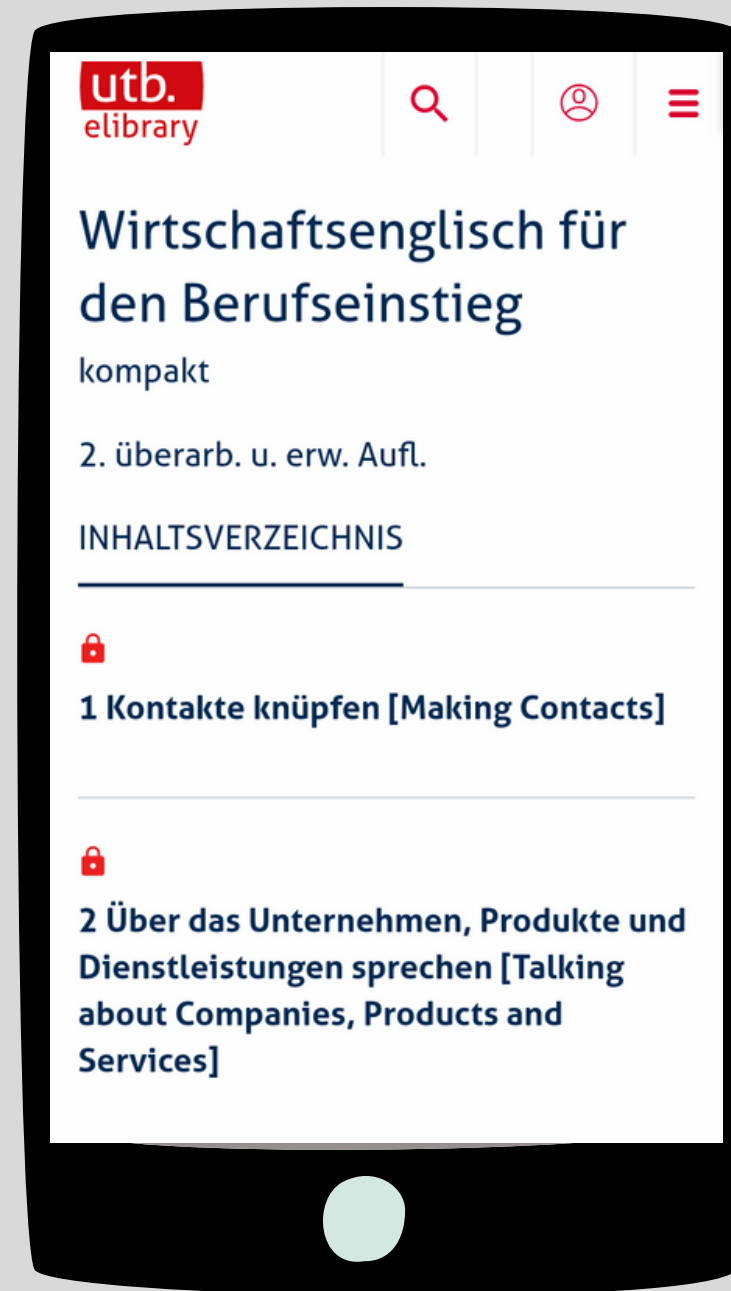

**UNIVERSITÄT
ERFURT**

Universitätsbibliothek

**Remote
access**

No access from off-campus?

No problem!

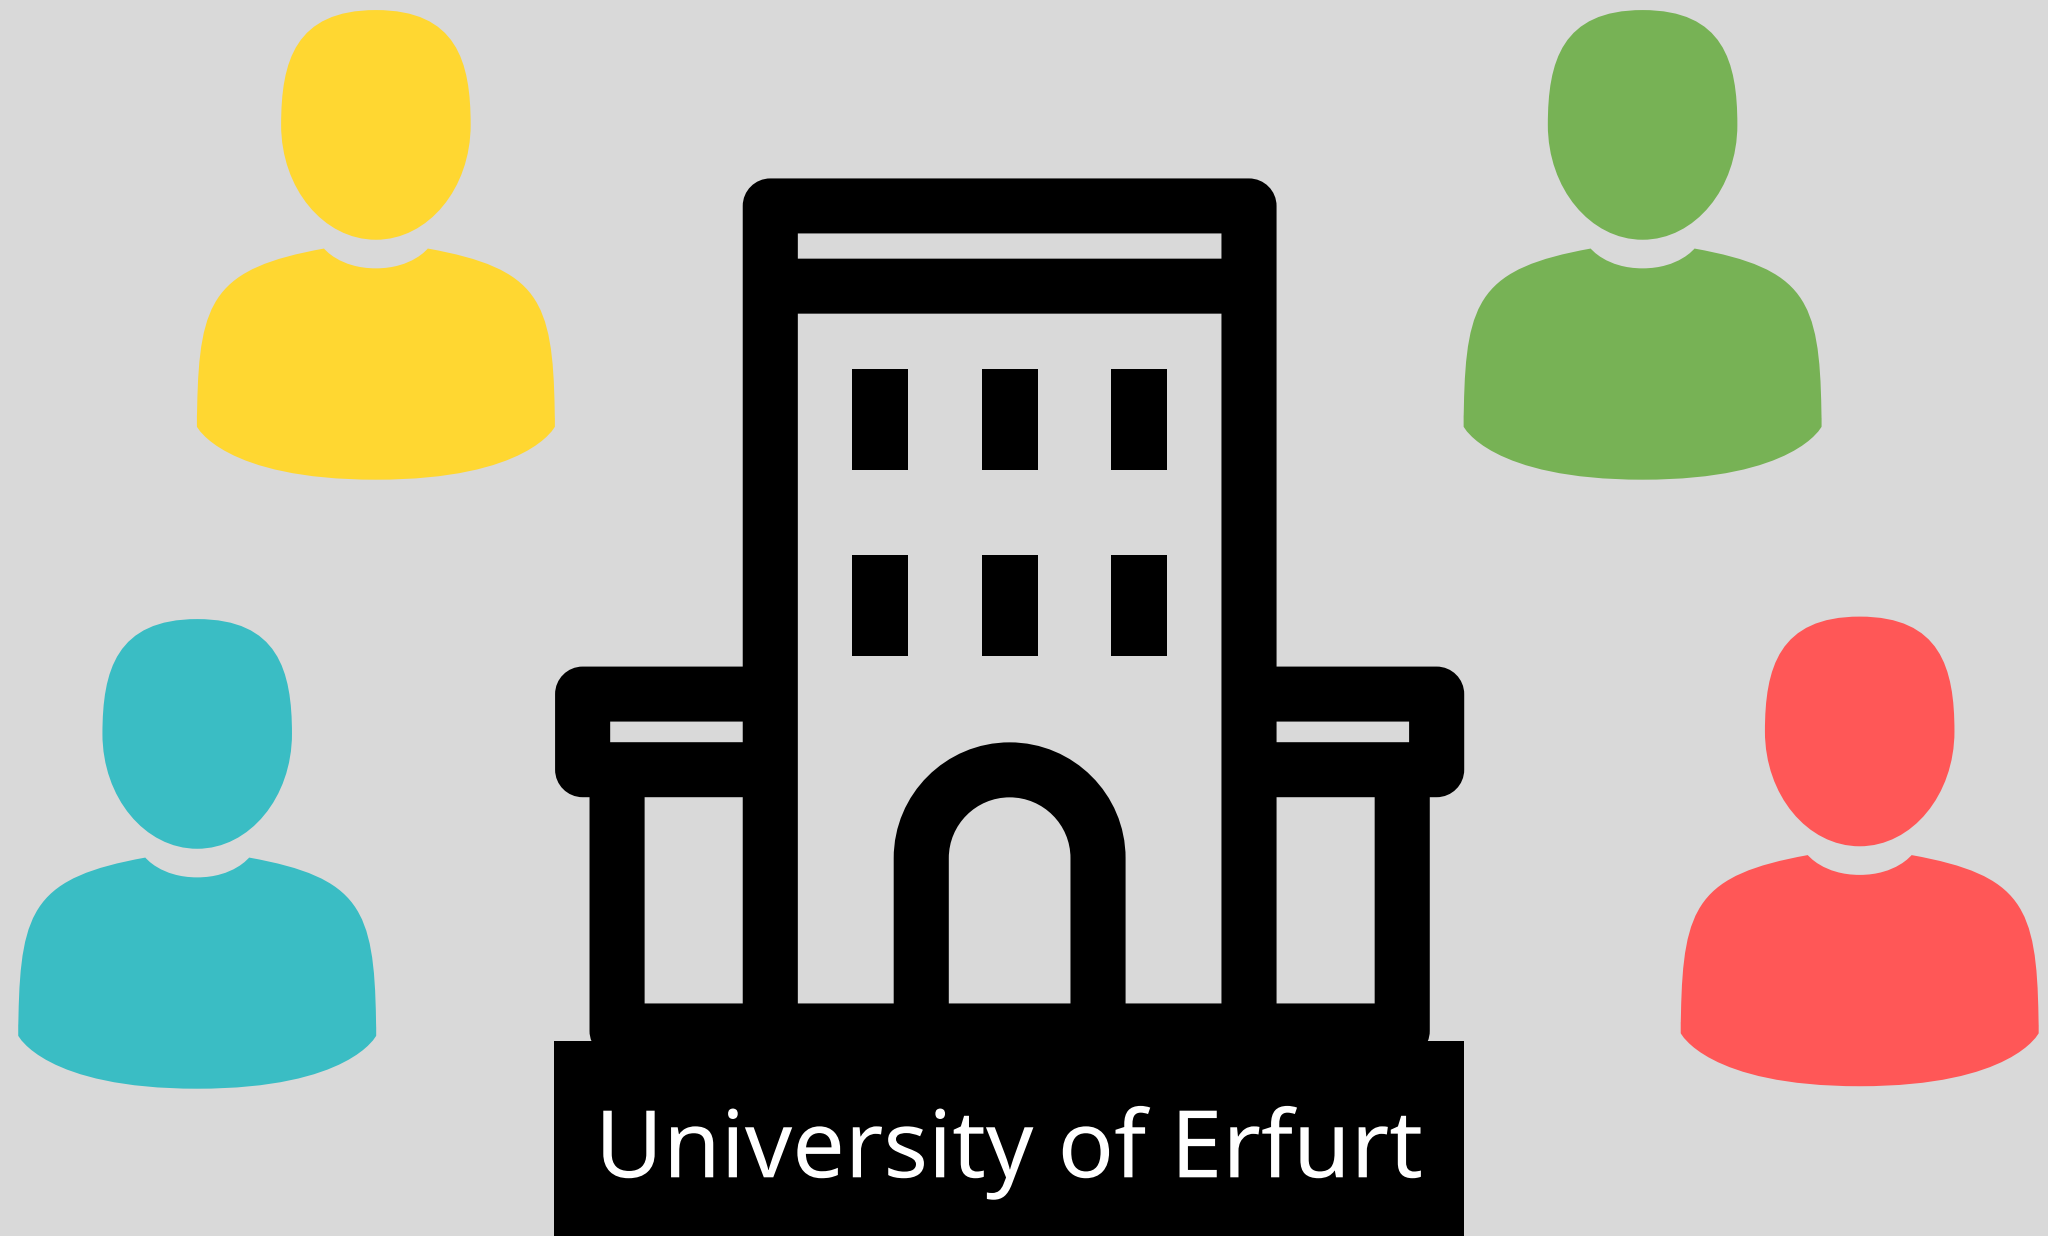

Shibboleth and VPN enable access to licensed electronic resources of the University of Erfurt from outside the university network in Erfurt and Gotha.

**UNIVERSITÄT
ERFURT**

Universitätsbibliothek

**Remote
access**

For university members only!

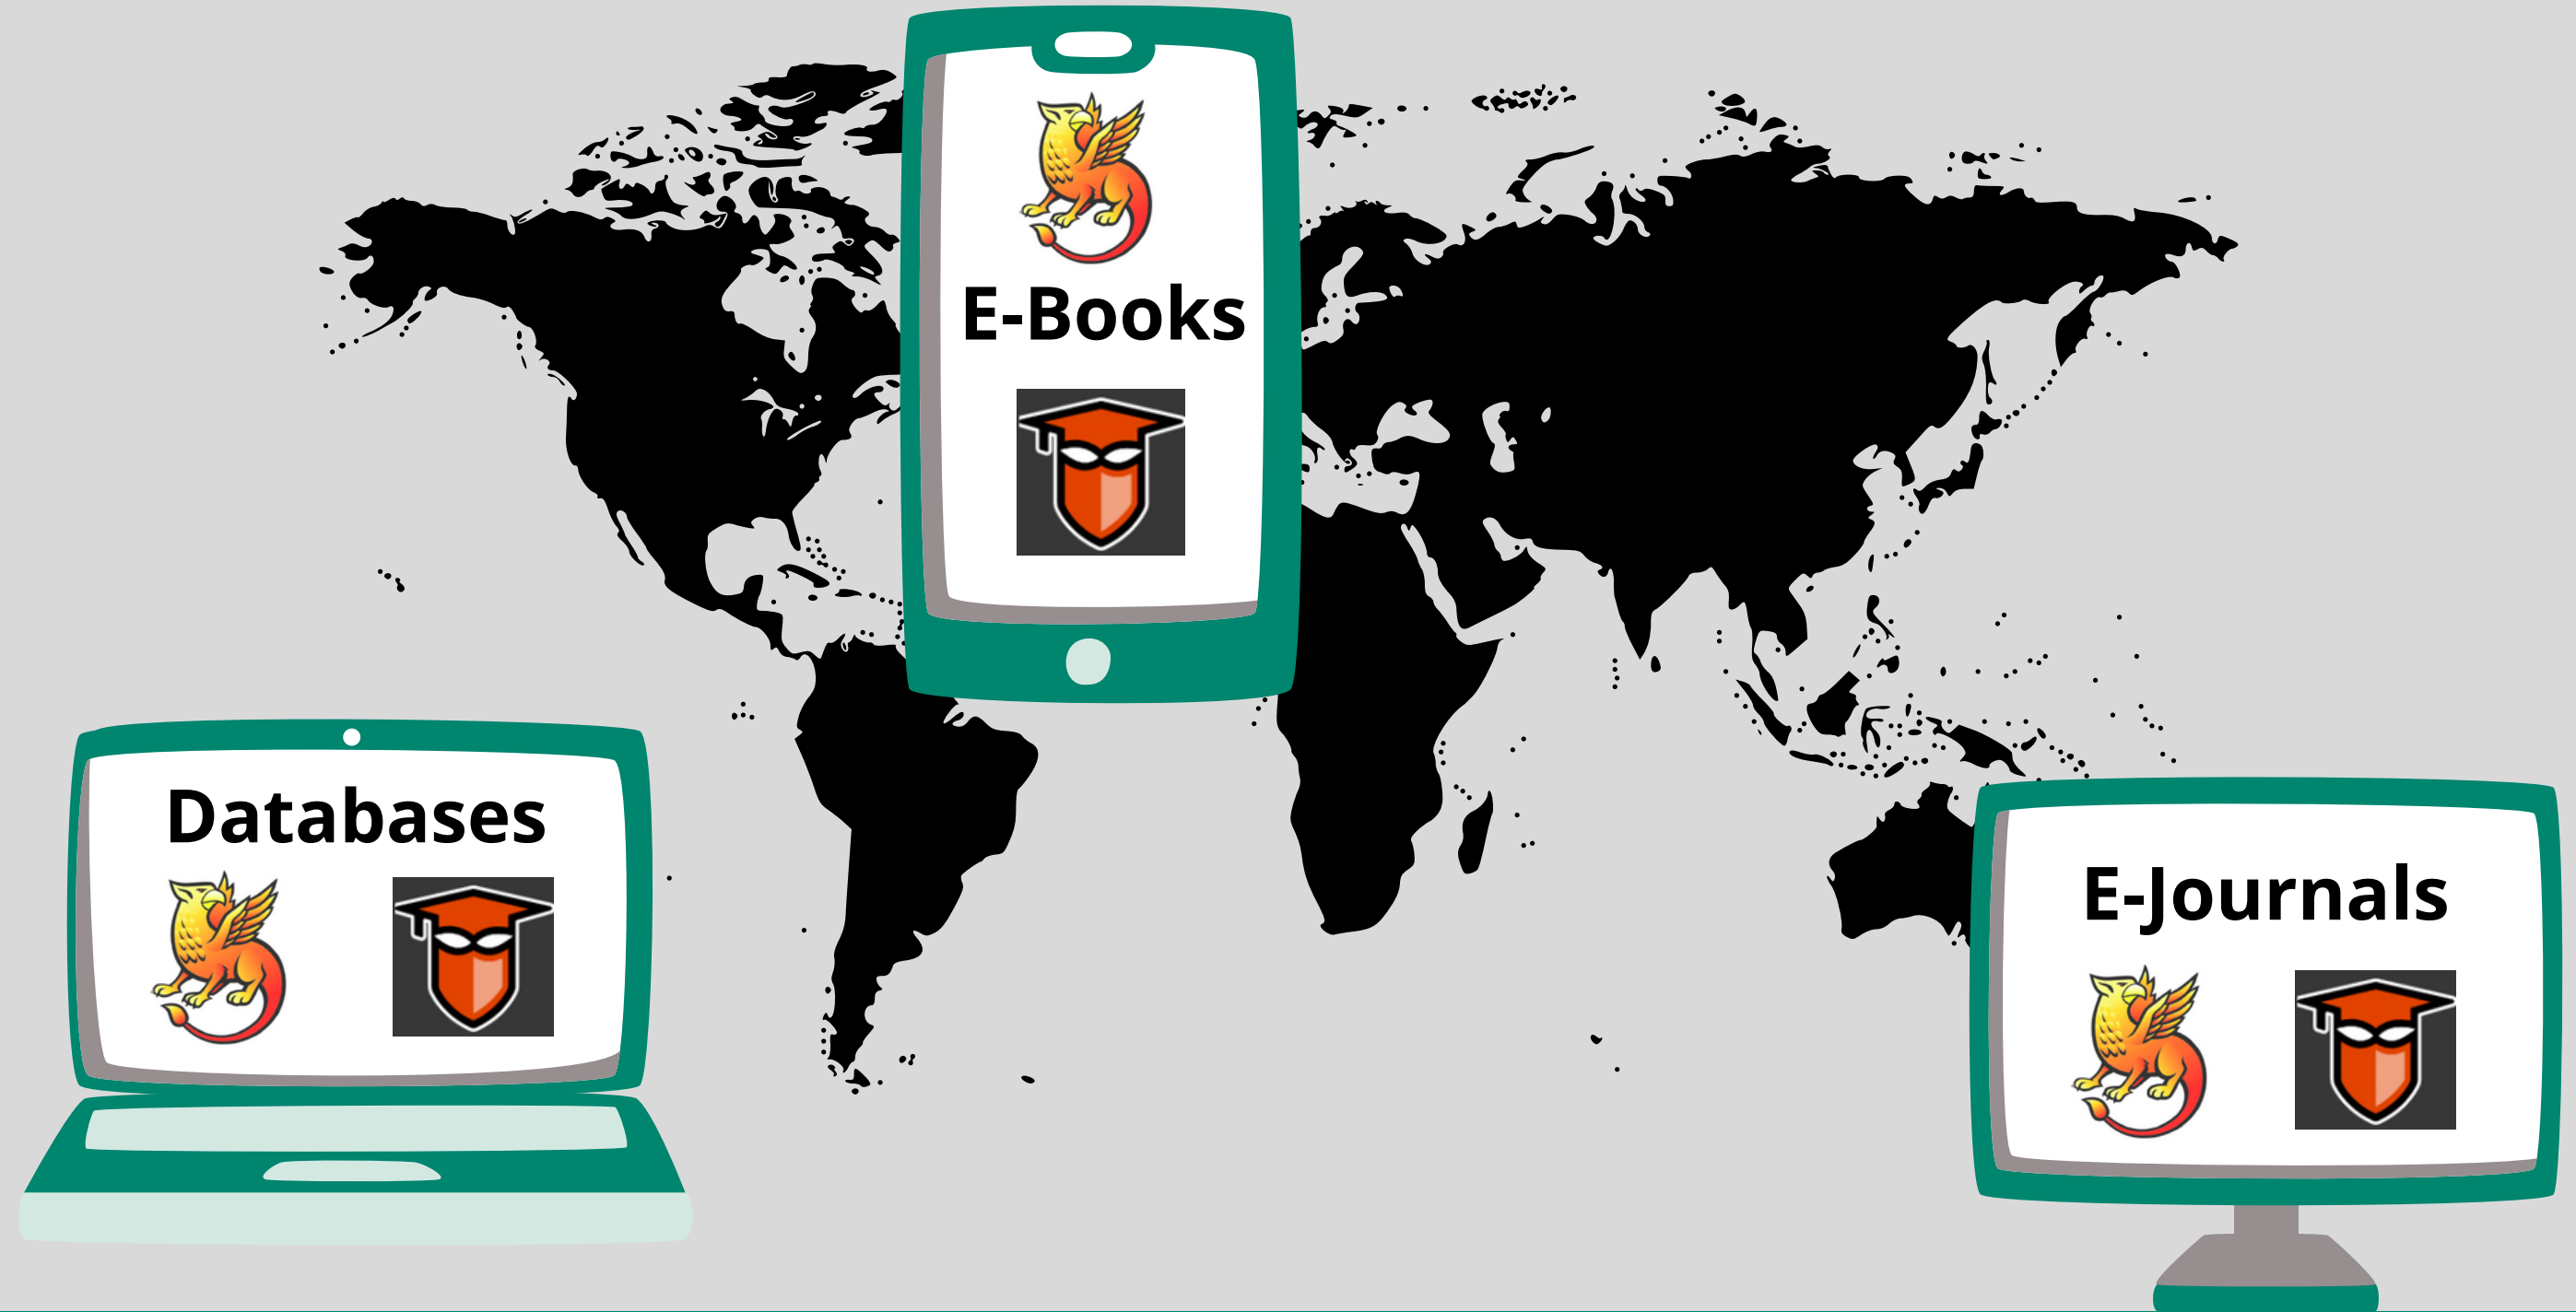

Remote or off-campus access to licensed databases, e-journals or e-books is possible **for staff and students of Erfurt University.**

UNIVERSITÄT
ERFURT

Universitätsbibliothek

Remote access

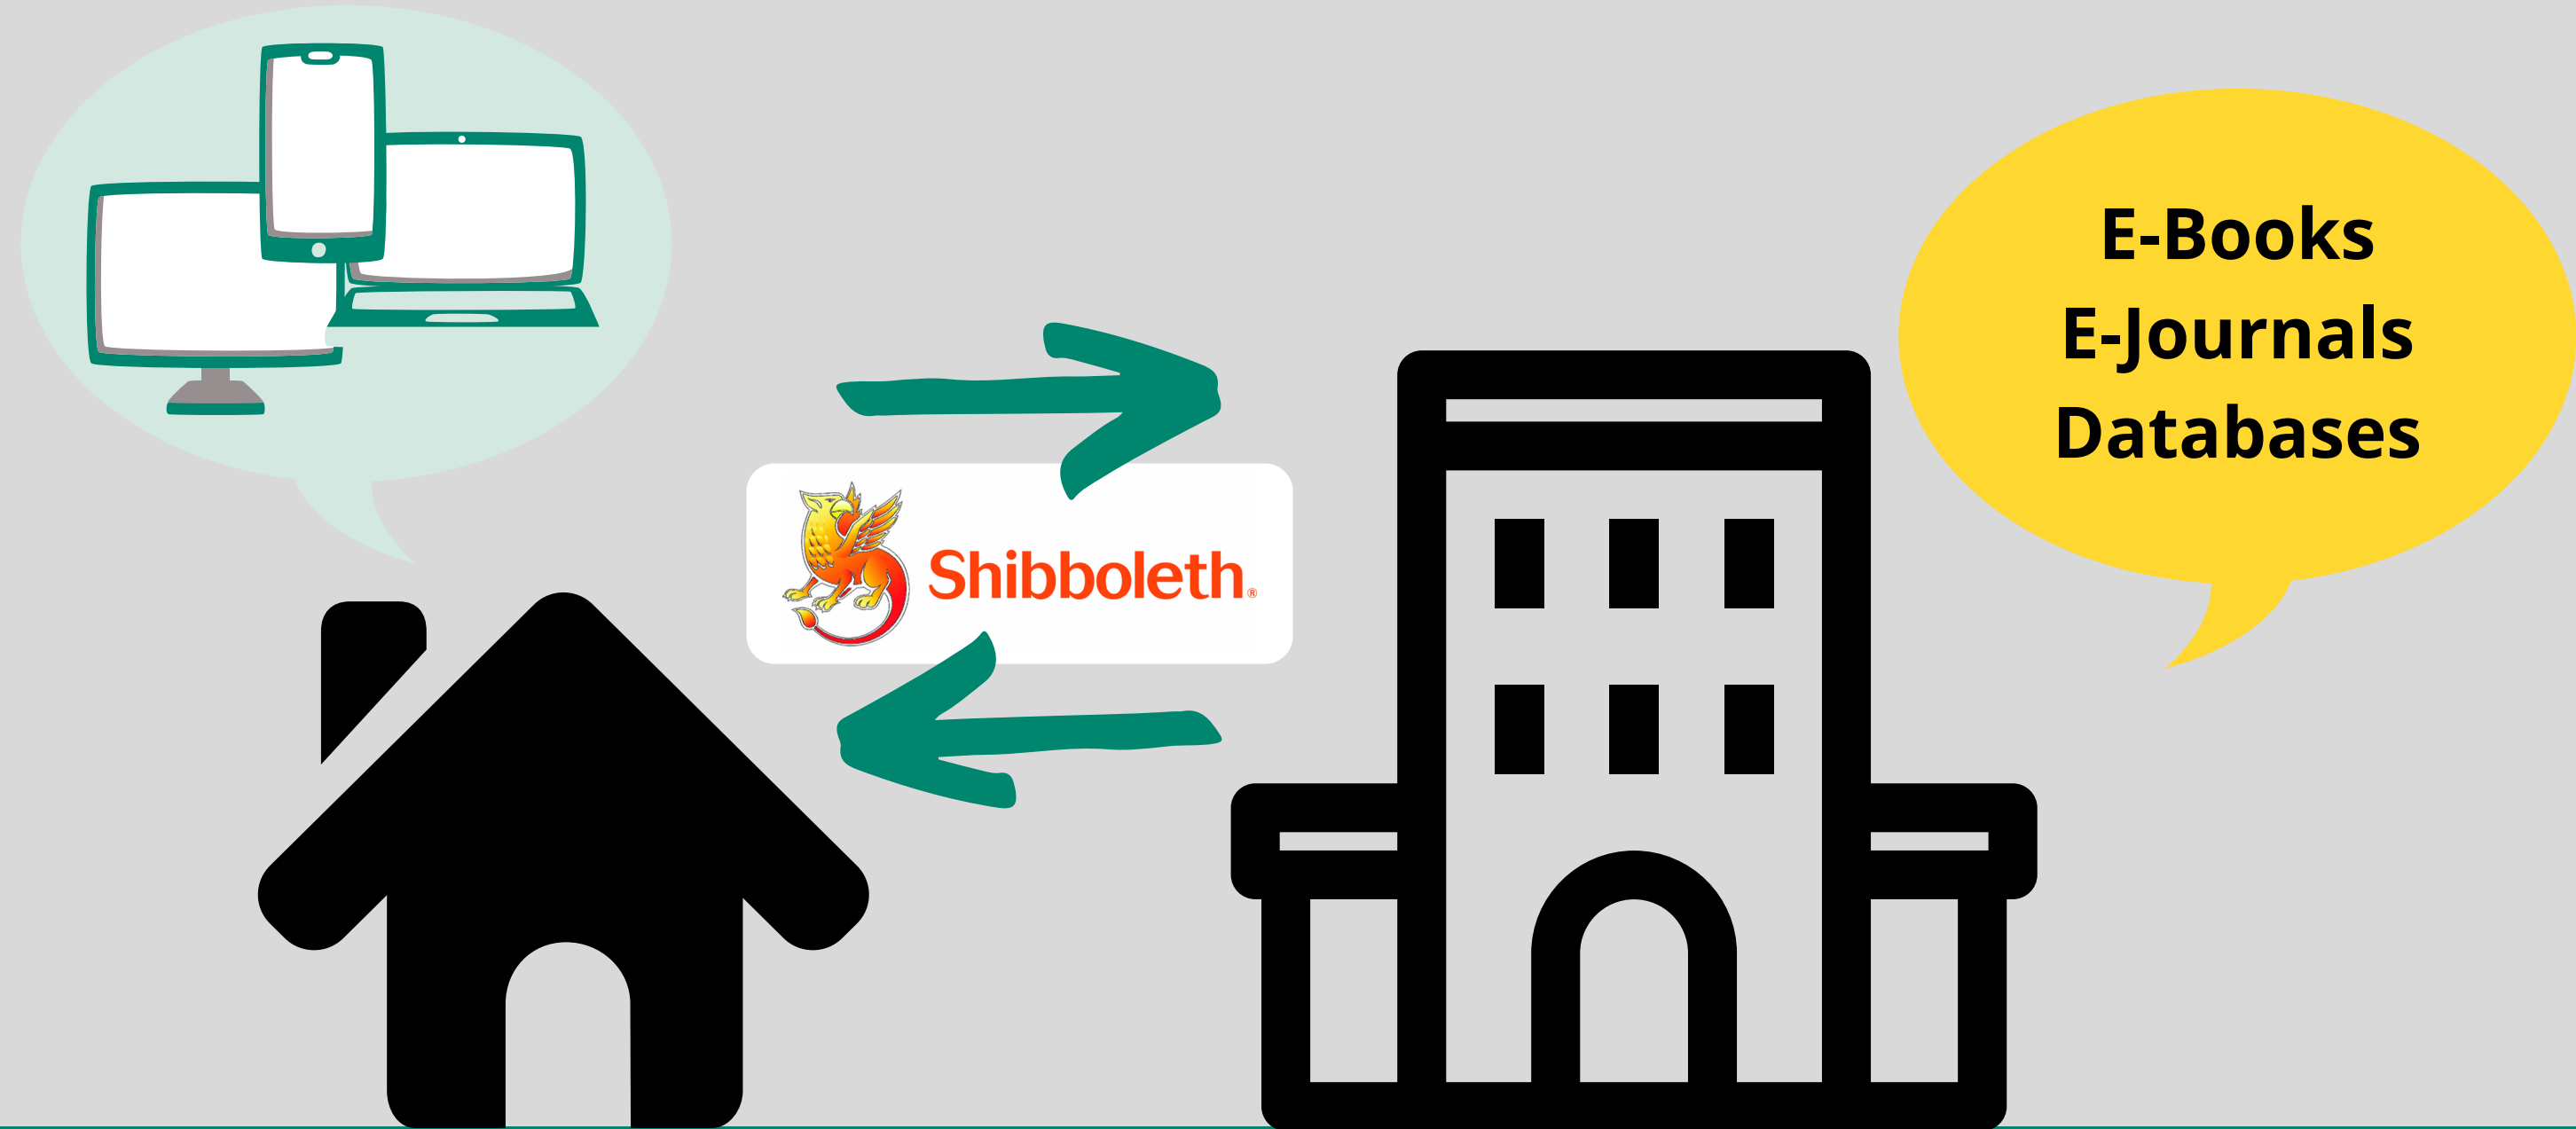

Shibboleth does not require any additional software.
The **eduVPN** client is needed for a VPN connection.
Both services work **independent of location and device.**

Shibboleth

What does Shibboleth mean?

An Internet-based **authorization and authentication process** that verifies membership in the university ...

... and after **logging in with the university login** (= ELVIS login)
unlocks access to the e-resources of the library.

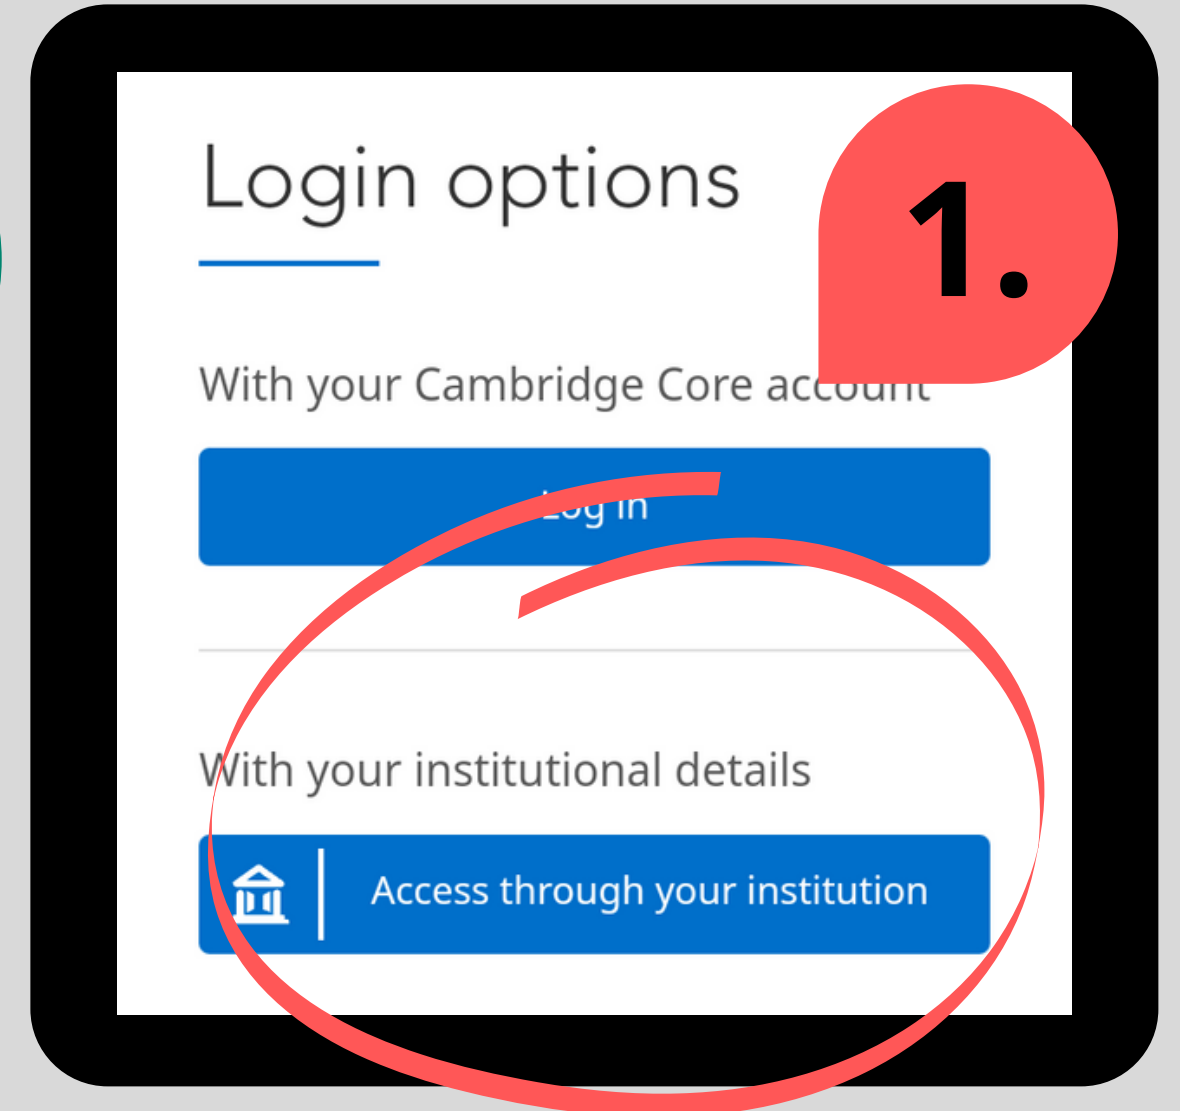

Shibboleth

How does Shibboleth work?

Log in
Sign up
Get access

The first step is to log in as a member of the University of Erfurt.
The **institutional login** is usually hidden behind "Shibboleth Login", "Institutional Login" or "Login via Institution".

VPN

What does VPN mean?

VPN enables **access to the university network.**

A secure connection makes the mobile device part of the university network.

How does VPN work?

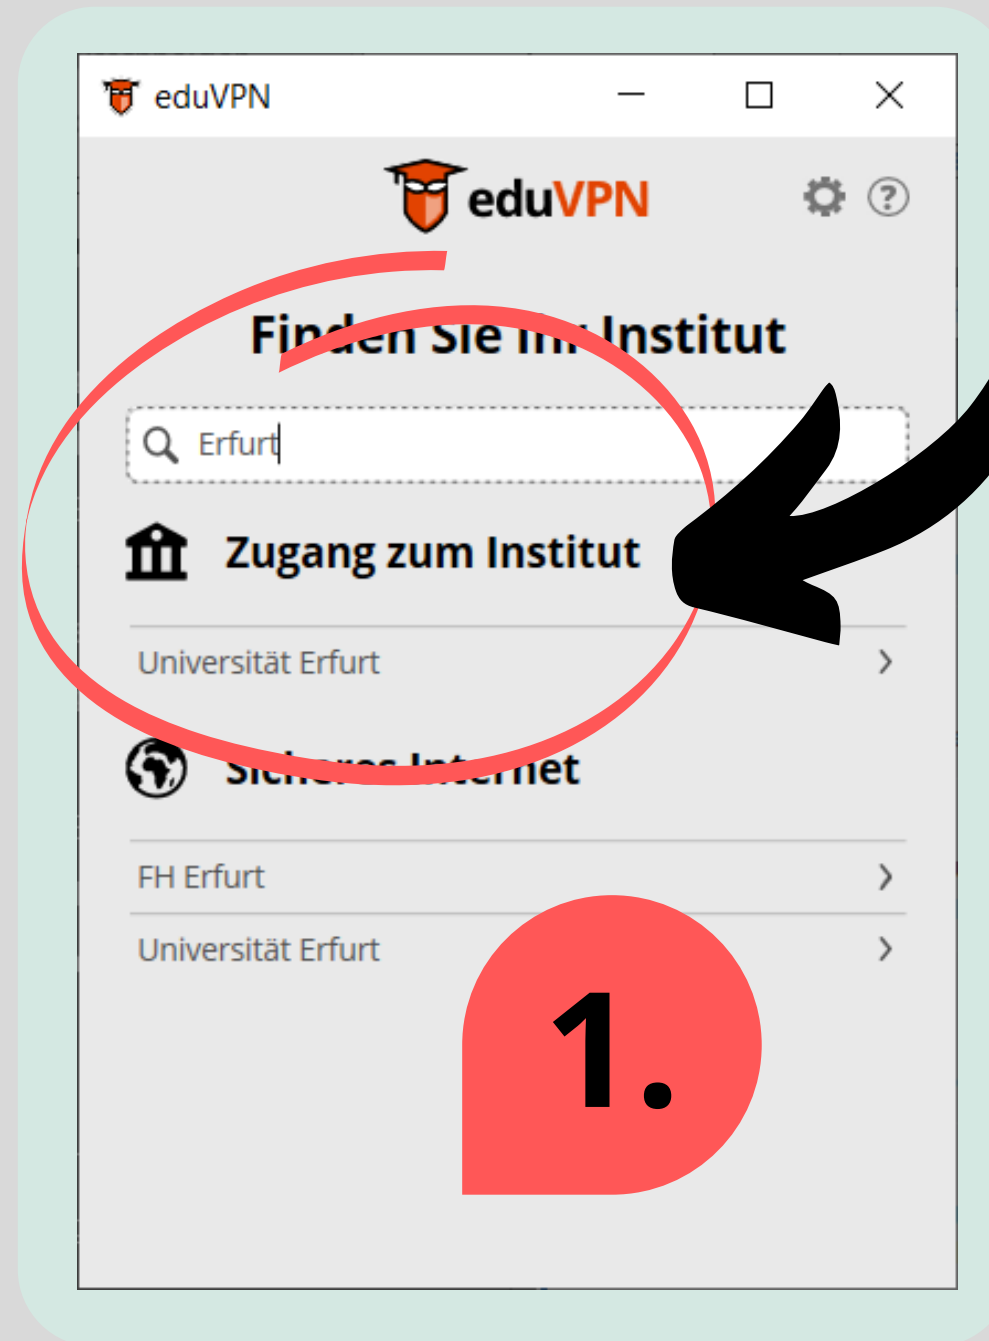

The screenshot shows the eduVPN website interface. At the top, there is a navigation bar with the eduVPN logo and the GÉANT logo. Below the navigation bar, there is a large orange banner with the text "Download eduVPN". Underneath, there are tabs for different operating systems: Windows, macOS, Android, iOS, and Linux. The "Windows" tab is selected, and it shows a Windows logo, the text "Download eduVPN for Windows", and a "Download for Windows" button. A yellow callout box with a black arrow points to the URL eduvpn.org/client-apps.

Download the **client for the eduVPN** from the eduVPN website or from the Play Store/App Store and install it on your device.

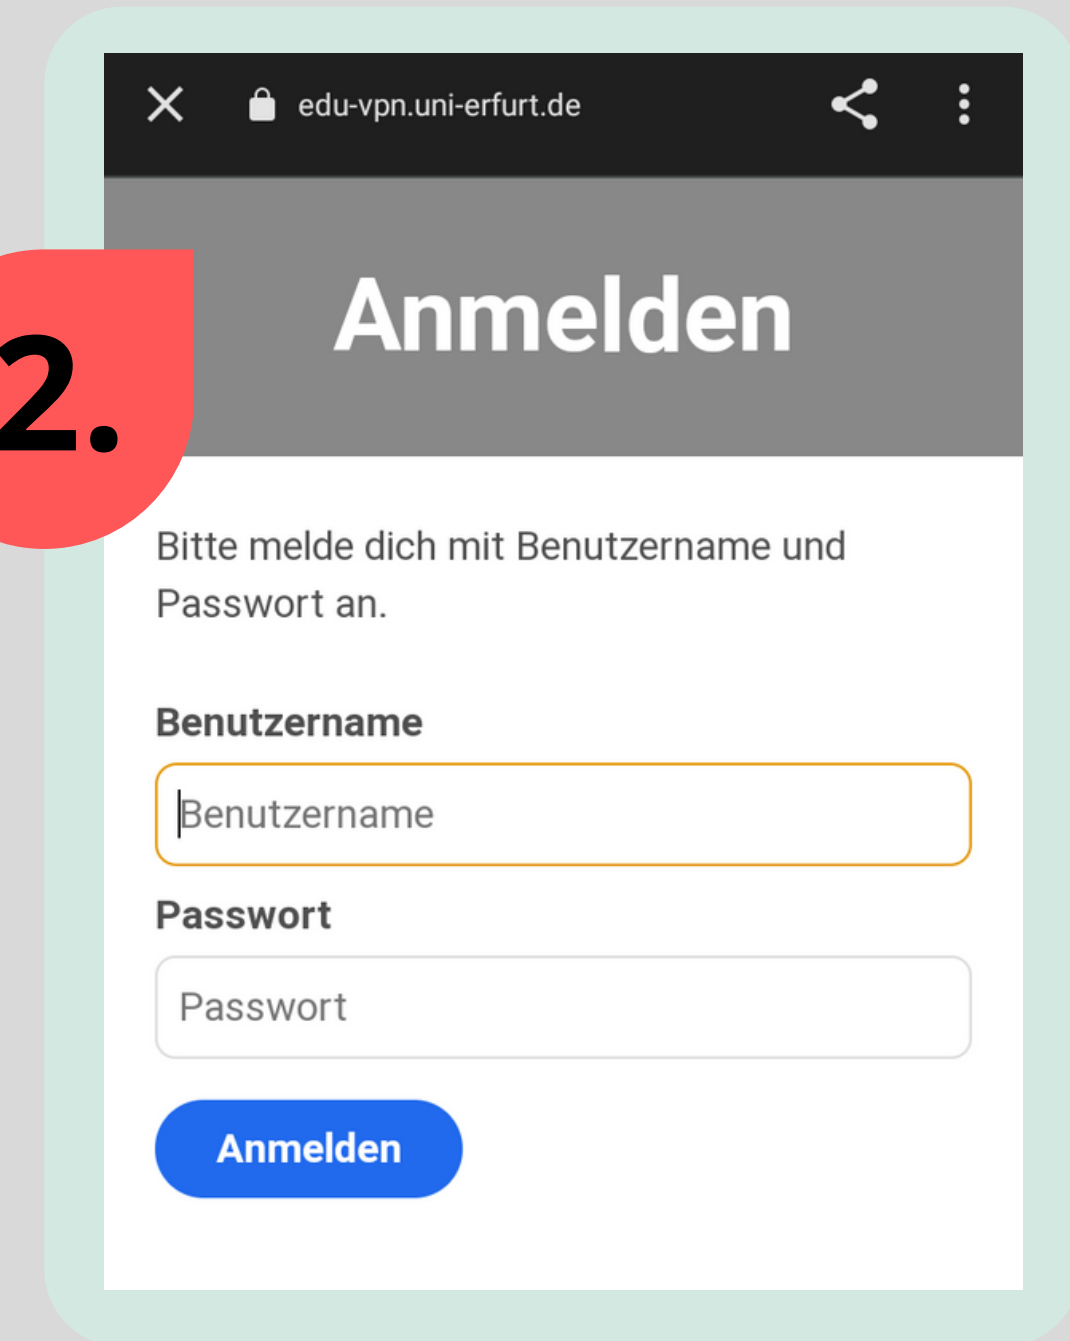

**UNIVERSITÄT
ERFURT**

Universitätsbibliothek

VPN

2.

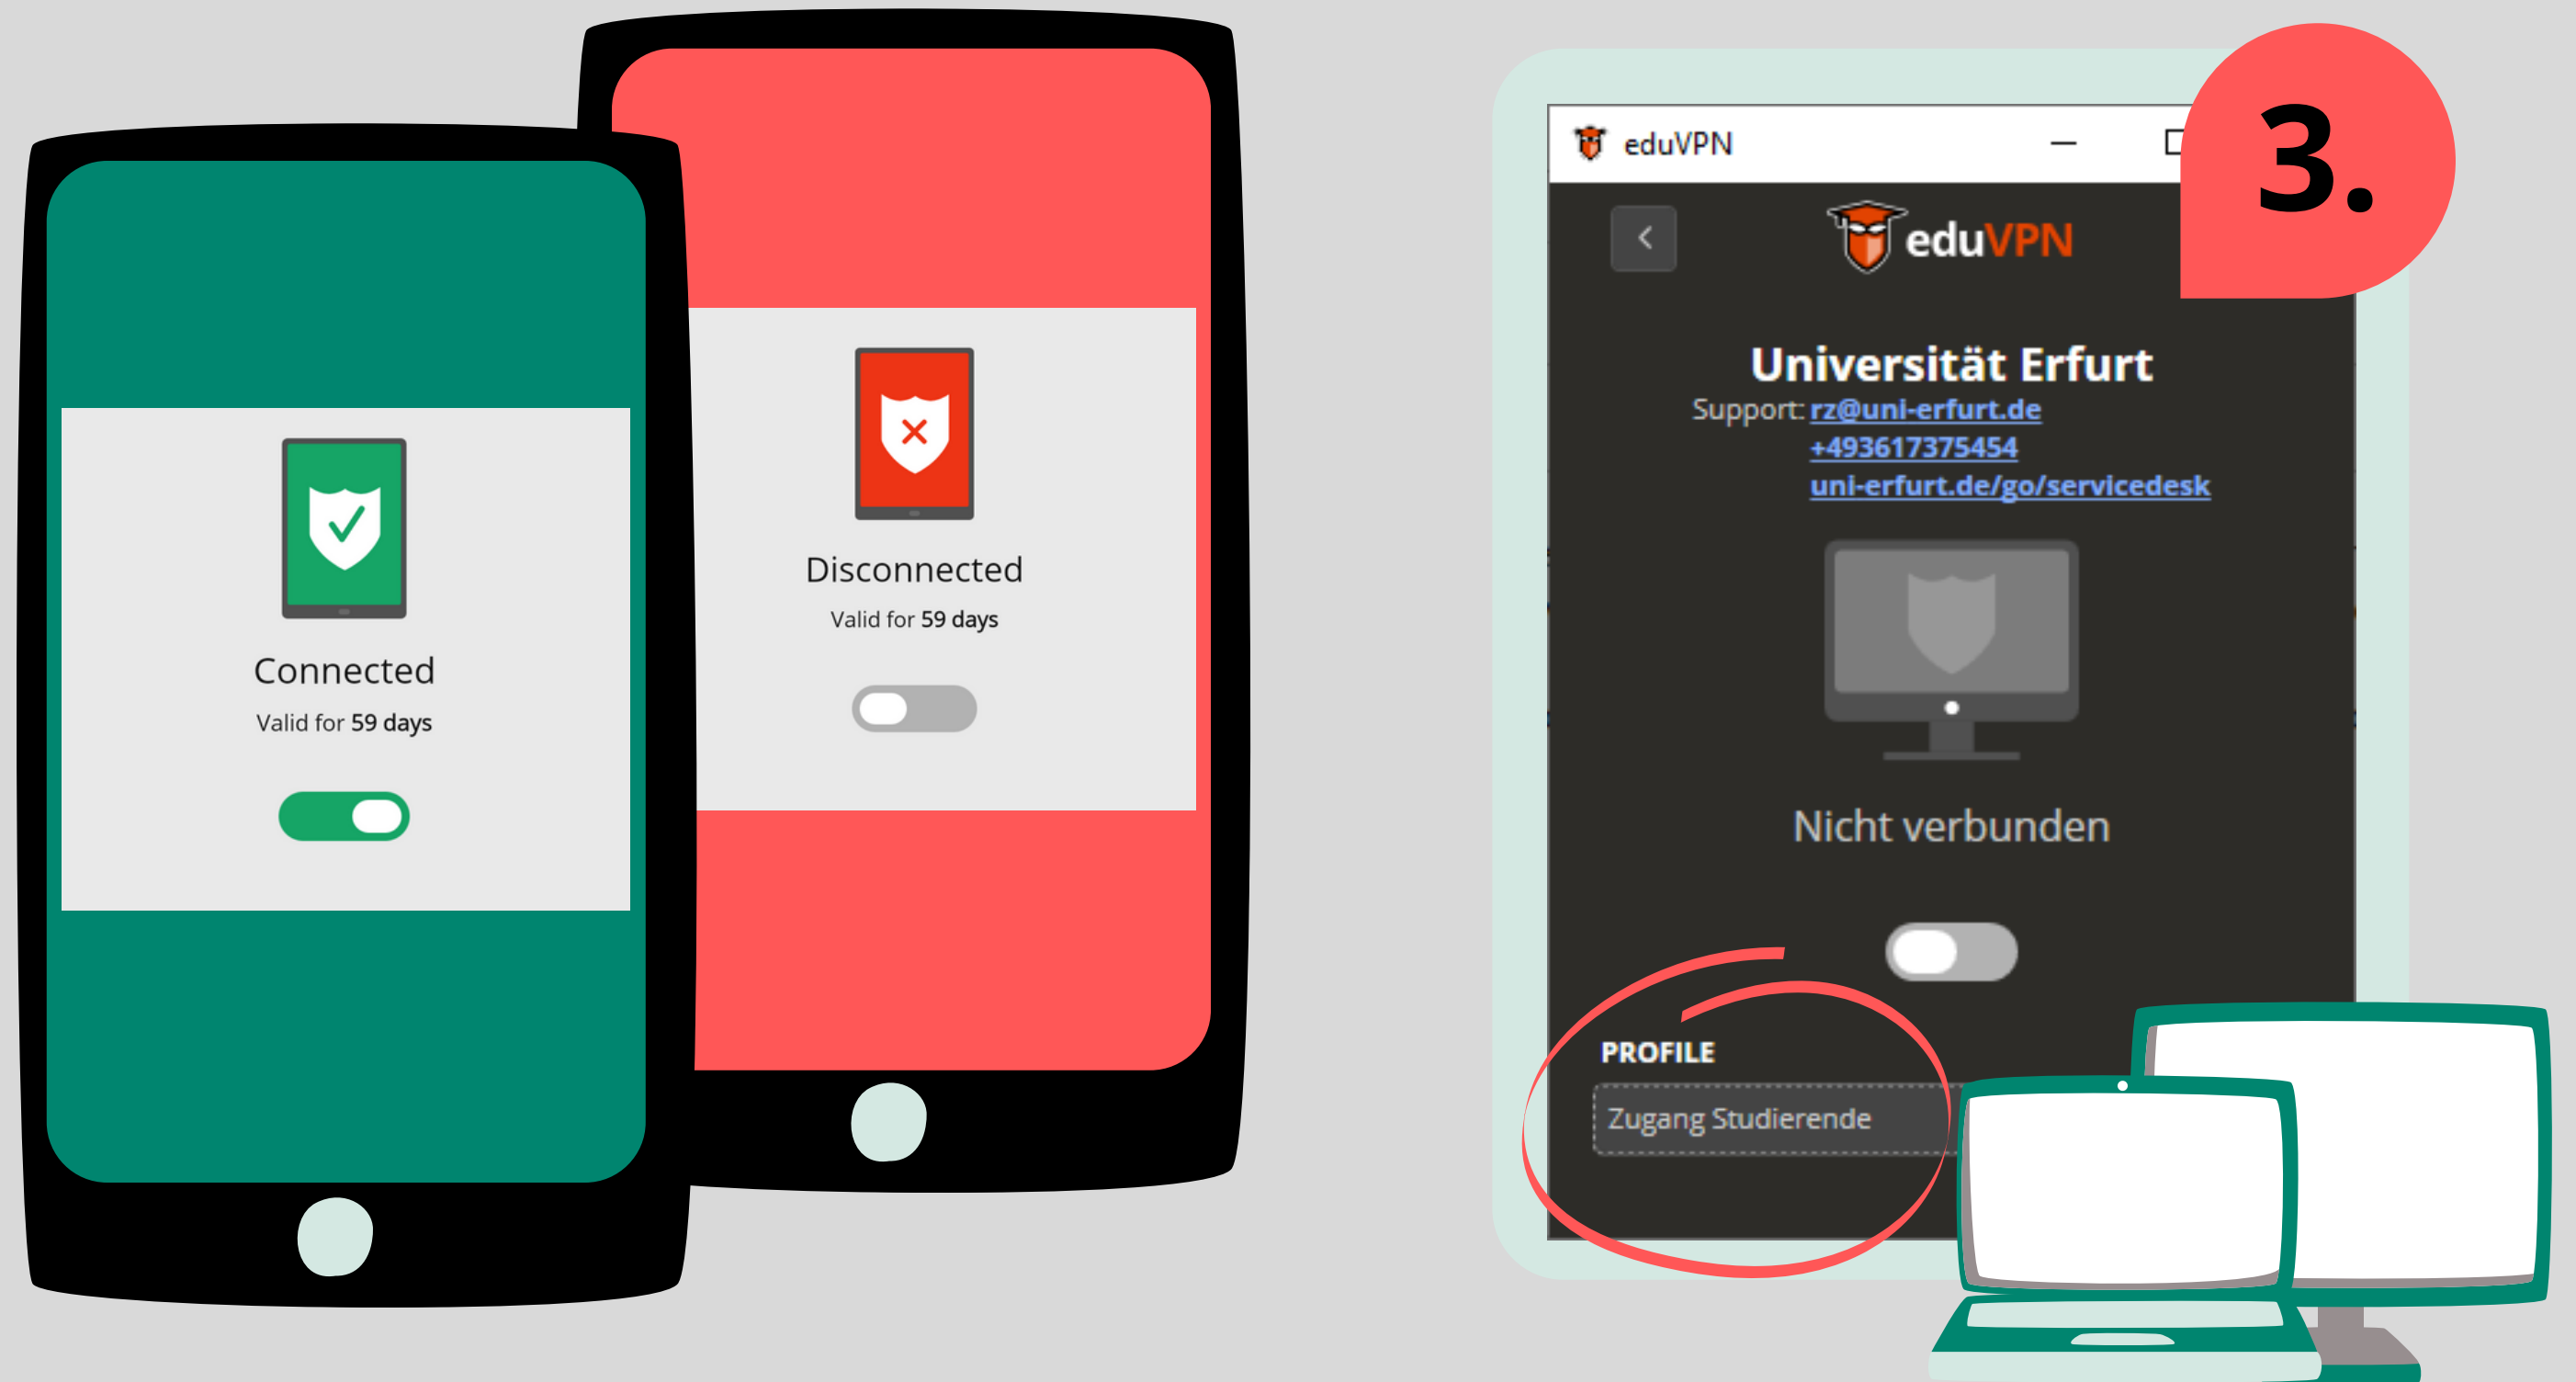

After the installation, start the client, enter **"Erfurt"** in the search and select the **"University of Erfurt/Universität Erfurt"**. Afterwards a browser window opens, which asks for your **university login** (= ELVIS login).

**UNIVERSITÄT
ERFURT**

Universitätsbibliothek

VPN

Now you can **start and end the VPN connection with the slider**.
At the computer select "Zugang Studierende/Mitarbeiter" and then
start eduVPN.

**UNIVERSITÄT
ERFURT**

Universitätsbibliothek

VPN

Databases

E-Journals

E-Books

VPN enables access to the university network in its entirety.
Multiple logins for different services **are not necessary** (in
difference to Shibboleth).

Remote access

Shibboleth or VPN?

The most electronic resources (e-books, e-journals and databases) are accessible **with Shibboleth or via VPN** from off-campus.

Some databases, e-journals and e-books have **special rules for the remote access**. If you have any further questions about it, feel free to contact us.

Remote access

Hints and hacks

The library has not always licensed the requested full text. Then you will not get access even after logging in with Shibboleth or VPN.

Then feel free to contact us to talk about other possible ways to get your requested literature.

On the library website you will find all important information about remote access via Shibboleth and VPN.
