

Taylor & Francis : Auszug aus den Lizenzbedingungen

s. <https://www.taylorfrancis.com/terms-and-conditions>

1. In relation to Licensed Materials with DRM, during the Term;
 - 1.1. Authorised Users may, in accordance with the Licence and the Restrictions:
 - 1.1.1. search, view, retrieve and display the Licensed Materials on the device to which the Licensed Materials are downloaded for viewing purposes only;
 - 1.1.2. copy and paste up to one thousand (1000) words per single eBook, serial or other literary work forming part of the Licensed Materials under this Agreement, per Authorised User, per session for Personal Use only.
 - 1.2. The Publisher shall procure that, during the Term:
 - 1.2.1. the number of simultaneous Authorised Users per Licensed Material shall not exceed one (1) at any one time; and
 - 1.2.2. each Authorised User shall not access any one (1) Licensed Material for more than one hundred and twenty (120) minutes per session.
2. In relation to Licensed Materials which are DRM free, Authorised Users may, in accordance with the Licence and the Restrictions, during the Term
 - 2.1. search, view, retrieve and display the Licensed Materials on the device to which the Licensed Materials are downloaded for viewing purposes only; and
 - 2.2. copy, paste and print the Licensed Materials or any part thereof without page or word restrictions for Personal Use only.
3. For the avoidance of any doubt, nothing in this Agreement permits an Authorised User to email or otherwise distribute the Licensed Materials, whether with DRM or DRM free in any way, even if such distribution is for Personal Use.
4. **Text and Data Mining (TDM):** Licensee will ensure that Authorised Users obtain prior written permission from the Publisher, to perform and engage in text and data mining activities in relation to the Licensed Materials or Online Services, which are understood as a machine process by which information may be derived by identifying patterns and trends within natural language through text categorization, statistical pattern recognition, concept or sentiment extraction, and the association of natural language with indexing terms. Requests for which, shall specify if text and data mining activities are to be for commercial or non-commercial use. If authorised by the Publisher, applicable 'cost-recovery fees' will be determined by the Publisher at its sole discretion.
