# INTERNATIONAL INEQUALITY OF THE PANDEMIC

➤ with Prof. Dr. Barbara Fritz, Prof. Dr. Achim Kemmerling

The Covid pandemic has led us to an economic upheaval. With that, questions about the international inequality and financial stability have been growing. How can we finance the global costs of the pandemic? How does it impact development and international cooperation?

We want to discuss these questions together with Prof. Barbara Fritz and Prof. Achim Kemmerling to get a first introduction into the international inequalities of the pandemic and the so called Global Financial Safety Net.

*Prof. Barbara Fritz* is professor of Latin American Economics at the Freie Universität Berlin.

*Prof. Achim Kemmerling* is director of the Willy Brandt School of Public Policy and holds the Gerhard Haniel Chair of Public Policy and International Development.
