Natural Law

AS AN ACADEMIC SUBJECT

1625-1850

The Network European Natural Law 1625-1850 hosts its first major conference on concepts and traditions of natural law in Europe from 9 to 12 October 2013 in cooperation with the Faculty of Law, Economics and Business at the Martin-Luther-Universität Halle-Wittenberg and the Interdisciplinary Centre for European Enlightenment Studies (IZEA). The local traditions of natural law concepts and starting from this the development and interconnection of these traditions are of special interest.

The conference will focus on local traditions of natural law, their development and interconnections. The places and periods selected are representative of the objectives of the network, and the papers will thus take stock of the results achieved so far while also serving to delineate lines of research to be pursued in the future.
