I. Historical Stocks and Catalogues

The following chapter provides you an initial overview to your research possibilities using the historical stocks of the library. A list of other important manuscripts and printed catalogues can be found online on the homepage of the library. There you will also find the appropriate catalogue of the Erfurt University Library that could be relevant for your research. In addition, a detailed catalogue overview with the listings of the Gotha Research Library is to be found in the handbook of the historical book stocks.

Please consider that the research bibliography of the University and Research Library Erfurt/Gotha, factual database and full text archive that you will find via the database info system (DBIS), can also be used for your research. Also, you can access the electronic journals (EZB).

Especially relevant research material or frequently used pieces of the historical libraries stocks are available in digital form and can be accessed through the digital historical library Erfurt/Gotha. The titles are also listed and linked in the online catalogue.

II. Research guide for the historical stocks

The research guide shows you the possible research steps you can take with your search for literature according to contents and alphabetically - both online as well as using the handwritten book catalogue of the Ducal Collection (microfiche at the general information and circulation desk).

The alphabetical book catalogue of the Ducal catalogue only serves as a registering function to the systematic catalogue. This indicates a page signature under which, in the systematic catalogue, the complete signature (individual signature) must be used.

In the special catalogues available in microfiche, please research additionally, as these are not integrated into the alphabetical and systematic book catalogue. You will receive the handwritten special catalogue Dissertations upon request from the staff of the special reading room. They will be happy to help you with any questions or advice regarding the stocks and their research tools. If you would like to use stocks from the Perthes collection, please go to the Homepage, in particular to the page "Accessing the holdings".

Revision markers in the book catalogue of the Ducal Collection

The stocks have been revised. The following revision marks can be found in the catalogue volumes:

- √ at location
- O missing
- ___ referral, cf.

* The order on the list is related to the Ducal classification system in the online catalogue
Content research

1. Version: Search in the classification system of the Ducal collection (Online, microfiche)

Example: Searching on titles about Spiritual Teaching

- Find an overview of the individual signature groups under „Classification system of the Ducal collection“
- Identify the page signature (indicates the pages in the systematic catalogue, on which the title of the searched subject are listed on)

Page signature ↓
01.12 Spiritual Teaching Phil 2° 00043

Search with the signature in the online-catalogue:
- Search for Phil 2° 00043
- Search key „Signature [SGN]“
- Entry with truncation: Phil 2° 0004?
- Found are titles from pages 40 to 49 of the catalogue

or

- Search by signature Phil 2° 00043 in the systematic catalogue of the microfiche edition

2. Version: Search with notations in the complete inventory

Using notation, you can search for previously online documented literature under the category „Classification [RVK]“ in the online-catalogue. Please note, that thereby, also stocks from the special collection of the University Library Erfurt will be shown that also use this notation.

Example: Search for the titles about Canon Law

Classification mark ↓
10.05 Canon Law (Ius Canonicum)

Search by notation:
- Entry in the search field in the online-catalogue: 10.05
- Search key: „Classification [RVK]“
- Show all of the accessible titles with this notation in the online-catalogue

The allocation of notation is being continuously upgraded for the complete old stocks. As long as all the stocks do not have this notation yet, the first version offered will bring more comprehensive research results and is, therefore, the central starting point for your complete research.
Alphabetical Research in handwritten catalogues

1. Step:
Search in the alphabetical catalogue to determine the base signature and the page number in the systematic catalogue (microfiche)

- In this catalogue you find information like author and title as well as subject group, format and (page) numbering that form the base signature
- Base signature located under the title
- Get information where to find title in the appropriate volume of the systematic catalogue
- Alphabetical catalogue has only register function: Subnumber not specified

Tip: Ordered according to "Prussian Instructions", search for: Substantivum regens (first the independent noun)
- No entries under corporations

2. Step:
Search in the systematic catalogue with the base signature to complete the individual signature (microfiche)

- Select the subject group
- Search for the given page in the alphabetical catalogue and your title
- Find the subnumber written in front of the author names
- Complete the individual signature with subnumber and if necessary with volume/issue
- Signature is complete

Example: Search for Francisco Suárez, Metaphysicarvm Disputatio, Venice 1605

1. Search in the alphabetical catalogue
- Search for Suárez:
- Base signature: Phil. Fol., p. 43
- Standardized form: Phil 2° 43

2. Search in the systematic catalogue
- Select subject group Phil., format Fol. (2°)
- Search on page 43 for Suarez
- Complete the individual signature with subnumber and volume
- Complete Signature: Phil 2° 43/1 (2)

Search in online-catalogue
- Search with standardized signature: Phil 2 00043 01 02
- Search key: „Signature [SGN]“
Research tips

Standardize signature when using the online-catalogue

Signature Phil 8° 120 /3 (1)
Standardized signature: Phil 8 00120 03 01
Search key: „Signature [SGN]”

Finding secondary literature from their sources

Based on the signature of manuscripts or old prints, you will find appropriate secondary literature in the online-catalogue (research documentation). Here, the manuscript signature will be used as the keyword.

Signature Chart A 102
Standardized signature
Entry with truncation: Chart A00102?
Search key: „Keyword [SLW]”

At the moment available in the research documentation is, in particular, research literature about Bibliotheca Amploniana and of the Research Library Gotha which is being continuously expanded.
